

Health & Safety Policy

version 2.0 • issue date 03/03/2017 • review date 05/01/2019

As Chair and Chief Executive Officer, we fully support the Transport Heritage NSW Health and Safety Policy.

The health and safety of all our workers and customers is our first priority.

Vision

Our vision is to bring transport heritage to life through:

- the operation and display of heritage assets in a modern environment,
- strengthened governance and safety risk management, and
- a safe railway and safe workplaces

Purpose

THNSW is committed to creating and maintaining a working environment that enables proactive health and safety management which strives to protect and improve the health, safety and wellbeing of our workers and customers.

Policy Statement

To demonstrate this commitment and ensure effective implementation of this policy, we will:

- Build a culture of working safely with positive safety behaviours
- Establish measurable objectives and targets to ensure continuous improvement aimed at eliminating work-related injury and illness
- Create a climate of trust where all incidents are reported and learnings from incidents are communicated and implemented
- Develop and implement effective safety risk management systems and processes to proactively identify hazards and eliminate or reduce safety risks
- Ensure compliance with all relevant health and safety legislation and regulatory requirements
- Establish effective consultation and communication mechanisms that ensure involvement of workers in the health and safety decision making process
- Provide appropriate training and awareness programs to ensure competency of all workers
- Ensure the health and wellbeing of our workers is valued, promoted and supported
- Employ robust processes to monitor and review health and safety performance
- Provide resources to meet the objectives of this policy and to implement and maintain an effective and robust Safety Management System
- Provide safety leadership that enables continuous improvement and reinforces that we all have a responsibility for safety
